

## **QUORN HEALTH SERVICE**

**2019 Registered Nurse**

**Transition to Professional Practice Program (TPPP)**

### **About Quorn Health Service**

Quorn is a 41 bed health unit servicing Quorn and the surrounding rural community. The unit provides medical, surgical and aged care and has a busy Accident and Emergency department.

### **What does the TPPP look like in Quorn?**

Quorn Health Service offers a comprehensive Transition to Professional Practice Program (TPPP) for nurses to assist in the transition from student nurse to an independent professional in a supportive environment. The program is based upon individual learning aims and is tailored to the individual's goals. The program is supported through a mentoring program and has a Registered Nurse who oversees the program. Education days are scheduled with TPPP participants from Port Augusta Hospital and held in Port Augusta.

Our diverse and supportive program offers;

- Comprehensive induction
- A Clinical Supervisor and mentors
- Ongoing clinical development
- Paid staff development time
- Flexible work conditions and family friendly initiatives
- 0.74 Full time equivalent (FTE) over a 7 day roster
- Diversity of clinical placements.

We believe Transitional to Professional Practice midwives and nurses are our future and participants may be offered ongoing career opportunities following successful completion of the TPPP. Contracts will be offered at 0.7FTE and commence late January or early February 2019.
