Discover a meaningful
career in the Riverland
with Country Health SA

i can

This beautiful part of the world is the home of the River Murray and is the destination for holiday makers who enjoy fishing, boating, sailing and the great outdoors in general.

The Riverland Community Health Service provides a range of services and programs from five sites in the Riverland - Berri, Loxton, Barmera, Renmark and Waikerie.

Services include Aboriginal health, allied health, home care packages, community nursing, community respite, occupational therapy, palliative care, social work, speech pathology, women's health, youth health and many more.

Kat – Regional Manager Riverland, Mallee, Coorong Community Health Service

Kat is responsible for the Riverland, Mallee, Coorong Community Health Service, which has staff in townships across the region.

"Previously I was working as a Regional Manager in the Riverland for another department, developing programs enabling people to get into employment and training," she said.

Kat has always been really passionate about health and her current role covers a range of areas including mental health, aged care and Aboriginal health.

"I love the diversity and the challenges – providing the highest quality health service is my driver," she said. "Knowing that what I do contributes to something as critical as health is really motivating for me. It gives my job a real purpose."

Kat describes the management group she works with as dynamic and positive. "They are always looking for opportunities to improve, they understand their business and are focused on innovation and quality," she said.

Kat particularly appreciates that Country Health SA gives her the time to learn. "There are lots of opportunities for progress and growth," she said.

"There is always something new to learn. I know I will feel fulfilled working here for a long time. Working in the country, you learn pretty quickly that you have to be flexible in how you approach things and that working together is encouraged."

Kat values the teams she manages. "We have a real team environment - everyone takes responsibility and provides input to come up with solutions on a daily basis," she said. "There is a feeling that we're all in it together - that we will all pitch in and help when the help is needed."
